Phụ Tùng Dệt May 55 xin gửi lời chúc tới Quý Doanh Nghiệp luôn gặt hái nhiều thành công và không ngừng phát triển.

Kính thưa: Quý Doanh Nghiệp

Phụ Tùng Dệt May 55 hoạt động từ năm 2009 trong các lĩnh vực kinh doanh và phân phối các sản phẩm về phụ tùng ngành sợi, dệt, tẩm nhuộm, định hình hoàn tất, máy cho ngành công nghiệp. Là một trong những nhà đại diện cho các nhãn hiệu nổi tiếng trong nước và quốc tế Ý, Mỹ, Pháp, Nhật Bản, Đài Loan, Hàn Quốc ... Hiện tại Phụ Tùng Dệt May 55 chúng tôi đã và đang cung cấp cho các Công ty, Xí nghiệp tại các tỉnh thành TP. Hà Nội, Bắc Ninh, Hưng Yên, Hải Dương, Hải Phòng, Thái Bình, Nam Định, Vĩnh Phúc, Thanh Hóa, Nghệ An, Đà Nẵng, TP. Hồ Chí Minh các tỉnh thành lân cận thuộc Ngành dệt, may, văng sấy, tẩm nhuộm...

CÁC MẶT HÀNG CHÚNG TÔI CUNG CẤP GỒM:

- Nhập khẩu các loại máy, phụ tùng linh kiện thay thế chính hãng máy dệt kiểm, dệt khi, dệt nước, dệt thoi. Phục vụ dệt khăn mặt, dệt vải, dệt nhãn mác, băng dây đai thuộc các hãng Vamatex, Picanol, Dornier, Nissan, Toyota, Sulzer, Tsudakoma, Somet, Muller ...
 - Nhập khẩu Các loại máy dệt thun bản của các hãng Đài Loan DKY, Trung Quốc.
 - Nhập khẩu phụ tùng, máy sợi con, máy sợi thô, máy chải, máy cọc, OE.
 - Nhập khẩu máy văng sấy, kim văng, má kẹp, rùa, xích tải, máy nhuộm. Máy sấy rung, máy hồ sợi, máy mắc, máy vắt công nghiệp.
 - Nhập khẩu máy cắt laser, cắt tem nhãn, máy in nhãn.
 - Gia công lắp đặt máy dệt, lắp ráp go xà máy dệt đầu Jacquard Staubli, Bonas, Gross, Muller, các dạng đầu máy dệt thun đai.
- Với đội ngũ cán bộ nhân viên chuyên nghiệp năng động, nhiệt tình, giao hàng nhanh chóng hiệu quả, cùng lợi thế cạnh tranh về giá, ưu đãi về dịch vụ, Chúng tôi rất mong được trở thành một đối tác đáng tin cậy của Quý Doanh nghiệp.

Garment spare parts trade and import export Co.,Ltd company PTDM 55 would like to send our best wishes to you for success. and continuous development.

Dear: Your Company

Textile and garment PTDM 55 has been operating since 2009 in the fields of trading and distribution of textile accessories, textile, dyeing, finishing and sewing for the industry. Be one of the elected representatives for many famous brands in Italy and the United States, the United States, Italia, France, Japan, Korea, China, Taiwan... At present, PTDM 55 garment spare parts have been supplied to factories in Ha Noi, Bac Ninh, Hung Yen, Hai Duong, Hai Phong, Thai Binh, Nam Dinh, Vinh Phuc, Thanh Hoa. , Nghe An, Da Nang, Ho Chi Minh City neighboring provinces of textile, garment, lacquer, dye ...

THE ITEMS WE OFFER INCLUDE:

- Importing machines, spare parts, genuine spare parts, weaving machines, Weaving face towel, weaving belts of Vamatex, Toyota, Sulzer, Tsudakoma, Somet, Muller...
- Importing textile Machines of Taiwanese firms DKY, China.
- Importing spare parts, spinning machine, coarse machine, brush machine, pile machine, OE.
- Importing stenter, stapler, chopper, turtle, chain, dyeing machine. Vibrating machine, spinning machine, hook machine, industrial crushers.
- Importing laser cutting machine, cutting stamp label, label printer.
- Fabrication of knitting machines, assembly of Jacquard Staubli, Bonas, Gross, Muller weaving machines, belt type weaving machines.

We have at our disposal a complete range of accessories and spare parts. High quality of distributed trade marks made of us as an example of textile industry a wide assortment of items and the timeliness of spare parts deliveries made of us great esteem of our customers.

High Temperature Grease

BARRIERTA L 55/0-3 series long-term greases offer excellent resistance to high temperature and aggressive media and at the same time compatibility with plastics and elastomers.

Product Parameters

Parameters	L55/2-TZGZ-737	
Base oil	PFPE	
Thickener	PTFE	
Surface Appearance	milk white	
Standard NLGI Level	2	
Penetration	265 ~ 295	
(°C) Temperature	-30 ~ 260	
(g/cm ³ 20°C) Density	1.93	
Base Oil Viscosity (mm ² /s)	40°C	407
	100°C	35
Warranty (original sealed)	60 months

Installation bracket

Cloth guiders

PN2 Type Pneumatic Cloth Guider

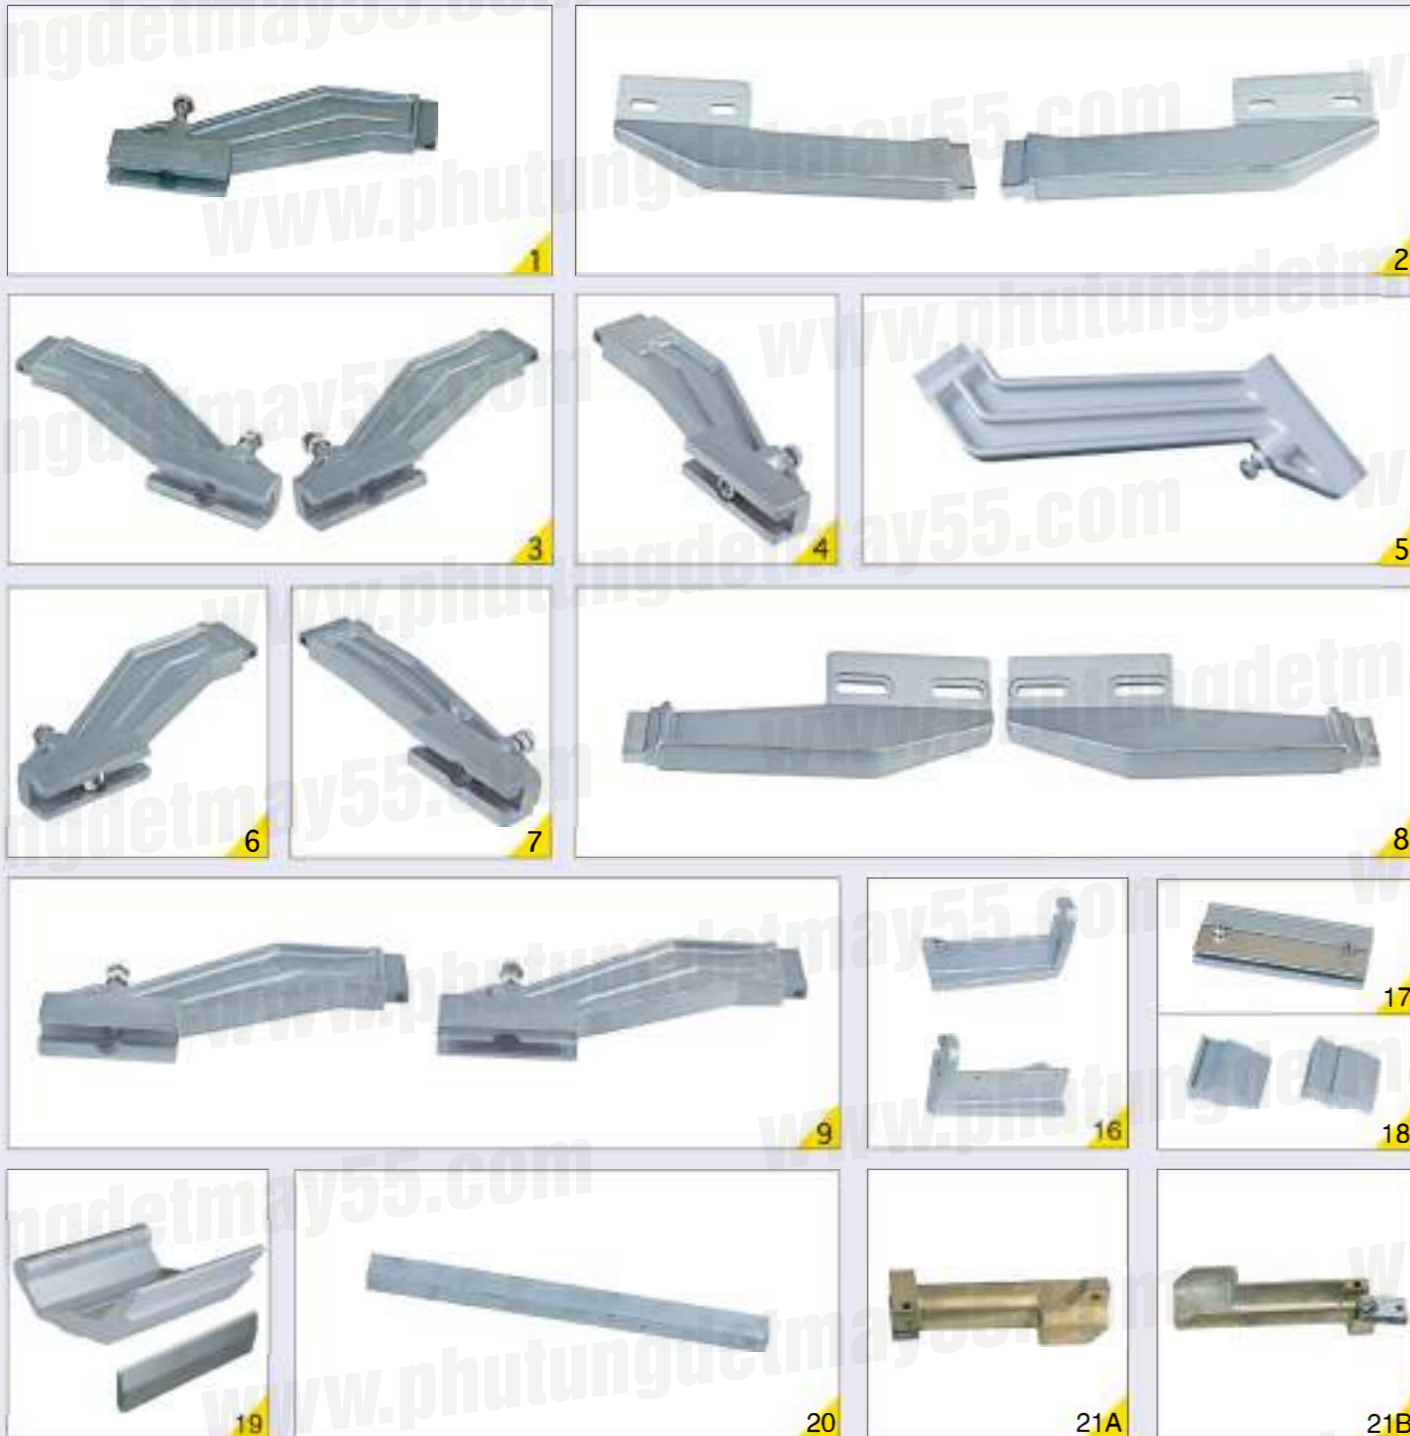

It is used under pressure less than 3 kg/cubic cm to compress air. It is mainly used in the printing&dyeing industry to prevent from deviation during fabric motions. It helps stretching the fabrics without wrinkle.

DX80-2 Type Photoelectric Cloth Guider

It is mainly used in the printing&dyeing industry to prevent from deviation during fabric motions. It helps stretching the fabrics without wrinkle. It has long life, stable working and high sensitiveness.

TM-W

TM-W Centering Device

Centering Device

Main Characteristics:

- Two rollers can rotate 360 degrees, in order to adjust the angle of different fabric scrolls.
- The spreading rollers can be equipped as per the requirement, so as to be suitable for various fabrics.
- Inspection and controlling system with the characteristic of sensitivity and stability.
- Driving structure uses the special engineering plastic and stainless steel gear, which has high efficient driving effect, low noise and energy saving effect.
- With the manual and automatic operating mode.

Technical Data:

- Roller Width (mm) : W (small width 1600~2600, big width 2800~3600)
- Fabric Width (mm) : W-200
- Maximum Fabric Feed Speed: 120m/min
- Air Supply Pressure: 0.4~0.6MPa
- Ambient Temperature: ≤40℃
- Power Supply Voltage: 380V

Chamber features

Chamber features

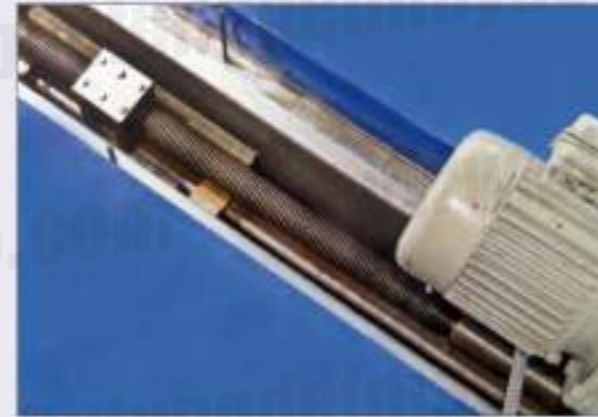

Modular design

4-10 chambers, 3 meter each, with air seals at both the entry and the exit of the chambers; One set of heating device equipped in each chamber (using heating oil, vapor or fuel gas as the heat source), with individual temperature control; The structure can warm fast and is easy to assemble, increasing the assembly speed at user site; Chamber insulation board is 150mm thick, of good heat preservation and energy saving; Heat source pipe is going through the chamber top, making the whole chamber of simple style; The frame is made by section steel and cold rolling steel is used in the insulated door; The panel is with spraying coating treatment; The surface appearance is nice.

Technical parameters:

Nominal width (w) : 1800、2000、2200、2400、2600 (narrow type)
 2800、3000、3200、3400、3600 (wide type)
 Fabric processing width range: 900 ~ (w-200)
 Speed range: 10 ~100 m/min
 Working temperature: ≤ 220 °C

Chamber features

Reasonable Width Adjustment System, Running Reliably

An individual adjusted screw rod driven by motor is used every 3 meter inside the chambers;
 Users can set fabric width conveniently, with width limit and angle limit for protection;
 Squeeze screw rod is used to lengthen the lift time.

Specially Designed Hot Air Circulation System

Efficient and energy saving double air duct hot air circulation system is used in the chambers;
 The airflow up and down can be set any ratio needed, which is controlled by the air door;
 The specially designed nozzle system can ensure good setting effect and get reasonable shrinkage rate;
 Circulation fans motor is designed with temperature resistance and imported bearing equipped, which lengthen the lift time of circulation fans motor.

Easy for Maintenance and Cleaning

All the connection parts of the chambers and the chamber door plate are sealed by the well-designed silicone rubber seals, which can be assembled and disassembled conveniently;
 There equipped a small insulation door on the adjustment position of every chamber top, easy for the system's cleaning and maintenance;
 The bearing of screw rod and circulation fan can be greased outside the chamber very conveniently;
 Double layers of filtering screens are set in every chamber, doing the cleaning without stopping the machine;
 The back punching is used in the hot air duct, avoiding the fabric extrusion.
